When I remember the day by day faithfulness of your law and the path of your commandments, which you have set before your servants, even to the toleration of enduring burdens, and to the singing of joy in the house of your slaves. —Psalm 1:1-2 Christ, the King of Love, all we own, the world, and all its wealth, is ours from our first breath, but all our love, all that is beautiful, is Jesus's. We cannot give Him anything, but we can prove by our love that we have given to Him all of our love that is worthy. And what if we cannot give Him all of our love? His own is perfect. We can find it all in him. Are you in love with Christ? Have you devoted yourself to him? Have you become his slave? Do you have his word in your heart and in your head, on your lips and in your fingers, in your face and in your hands? The more you do this, the more he will love you, and the more he will set you free. Today's Text:Verses 1-4 Today's Tune:One Beautiful Day (1995) by Michael Bublé Psalm 1 O How I Love Your Law! Alibaba The Wall Street Journal reports that regulators from more than 60 countries have launched a new initiative to fight online counterfeiting, joining forces in a coordinated effort at the World Customs Organization. Authorities from China, Japan, France, Germany, Brazil, South Korea and the U.S. have teamed up to fight counterfeit goods, including traffic in high-tech products that are of little or no use to consumers. "Older technologies are becoming less used, and the Internet is providing greater access to low-cost counterfeit goods," a senior French customs official told WSJ. "Our vigilance has greatly increased with the new technologies." In 2013, 63 countries reported \$22.2 billion of loss due to counterfeiting and piracy, a drop from the previous year, according to a report from the Organization for Economic Cooperation and Development. In the U.S., \$1.4 billion in sales are lost each year, according to the Consumer Goods Safety Commission. The WSJ adds that regulators also are concerned that fake goods now pose a bigger threat to national security and that the antiquated international standards governing the trade and legal parameters for dealing with counterfeits often are inadequate. They also cite the St. Louis Federal Reserve's CFT-TIP report, which was created in 2010, as a tool to better quantify such loss.
